

NOTHING BUT TALK

Frequently Asked Questions

What are the benefits of *Nothing but talk* ?

These multimedia presentations (talks) are aimed at the students' language levels (B1 - B2) so comprehension is guaranteed. Student satisfaction is high when they discover they can follow a 90 minute presentation with ease.

The topics on offer are relevant to the school syllabus.

Little class preparation is needed. Teachers can use the presentations as an introduction to a topic, or as a revision, or extension.

Students also get the opportunity to see how multimedia software can be used to good effect.

How are these presentations different from the standard presentation?

The presenter does not sit behind a table and read from a written document. He is up on his feet, moving around and speaking directly to the students.

The presenter does not use a microphone. The students listen to the natural voice and are therefore more attentive. This also facilitates comprehension.

The presenter is an experienced English language teacher and knows how to tailor the language of the presentation.

Have other schools in our area experienced these presentations?

A list of schools that have booked presentations can be found on the page below. The majority of schools on the list booked more than three dates (6 presentations in total) last year. More than 80% of the schools on the list have been booking *Nothing but talk* consistently for more than 15 years.

How easy is it to make a booking?

It's very easy. You can find a list of topics, free dates and a simple booking form at www.qelt.it, click on 'conferenze'. At all times, you will be communicating directly with the presenter of the presentations and nobody else. This speeds up the organisational process and prevents confusion.
